

It starts before Saint-Joseph where I have already been: "Princess Stéphanie of Bello". What I have been and what I am now is contested by my family, especially from Quebec and also from elsewhere. My father adopted his children, he adopted his children whom he had had with other women in Quebec when he was "Rocket". When I arrived I spoke English and French my father was called "Johnny Rocket" but he existed in his family only, he had another identity and if he had moved to Quebec it was to flee American justice. A thief wanted to steal my father and attacked my father who defended himself in self defense was unclear and moved to Quebec and at age 6 (I remember the 1976 Montreal Olympics I was a girl I had around 16 years old I made the Olympic games on the name of Nadine Netci become Frank Laporte and it was in 1976 during the Olympic Games we changed space time I woke up at the age of 6 I became a boy but the whole society have changed space time I was a girl become a boy I became a boy in kindergarten that I woke up). To start Gabon started her career with Broadway in Quebec. That I believe my father invented a whole scenario to make me discover the person that my father is: "an international rock star from a wealthy family", so he maybe made me up the truth about Broadway the band it's in 1976 the group was founded that never people saw and heard this music group that he had planned show and shot everything he claimed having done my dad created all these music album he created and recorded and released in 1976. When I was 6 years old I spoke on the phone to my grandfather "Dave Rocket" in "New York" and I passed my father to him at phone and he sent my father, now Peter Gabon, \$20,000,000. After having obtained the money from his father, he bought materials to make shows lighting equipment and all the equipment to produce a show. He gave his shows in Montreal and he transported his material that he was going to the Montreal airport making it seem like he was arriving

aircraft in his tour of Quebec. It has been a very long time since operations to change your body exists and I was the princess: "Stéphanie de Bello" who was the daughter of the Queen of England who lived with her father in Quebec and she spoke French and English, since the queen had had a child by "Johnny Rocket" become "Peter Gabon" the queen wanting to give me back the title of princess since the relationship had to remain secret she made the princess the daughter of the prince of "Bello. In 1986" I became a music star I made records from the shows and all the younger stuff I wasn't well in my woman's body and wanted to become a man. I had an operation and became a man but it seemed that I think my father invented a whole scenario to make me discover the person that my father is: "a star international rock from a rich family", so he made me up I was a transsexual and my father "Peter Gabon" decided to change my body and become Frank Laporte younger than I was I have pictures of when I became Frank Laporte (I'm going to write my story bit by bit, my memory fails me a little year and places where the events took place) in 1987 in Ville St-Laurent I was in the police and I killed a suspected drug dealer friend of Serge my brother, he had a gun and in Pierre I was also in the police where I intervened in an apartment on boulevard Pierre at my friend Sam's I killed with a bullet, he had weapons including a .22 pistol and several other baseball bats, metal bar, knife he was a gang and when he is death I lobbied for him to be operated on and brought back to life...I come back in 2007 with "Britnain Scare". When Britain to check my say that I am the "prince" the son of "Elisa 2" the queen of England we have been to royal palace speak to the queen and she confirms my words to me and to "Britain Scare" what I claim. In fact I will be brief for 2007 talking about the events marking in my history as having been a shareholder owner majority of a station and shareholder of Quebec TV one:" television four seasons" now "vtélé" and "tva" in which I was a shareholder but no

majority my name in the files must still appear there ... I will not speak if not little of the history of the drama of which I and many have been victims and it replied: "Do you have a street gang to help you and I say no but I have friends and he said to me: "go up." Arrived at the top there were curious people and I said: "How to do to call my friends and someone passed the phone to me and I called my family and also said can someone help me? and there was an animator radio who was there and told me how can I help you and I said send a message to the radio that "Frank Laporte is in danger in "Sorel" if anyone knows Frank Laporte to come and help him "... and Britain Scare came in a black limo and picked me up and Britain drove me with her to her apartment in New York. I became a cop and a rich man and that's where I'm from become rich and American and that's when some time after I met "Avril May" who was the friend of "Britain Scare" and I worked with in these videos. I was very rich and it was to my daughter "Avril" that I shared a little of my money. I fell in love with my girl a star international that I had sex with and she wanted to marry me...And with Britain Scare my daughter also when I made love with her, I sodomized her and she was cumming like crazy like "Avril" both were cumming like crazy cats in heat ... but the two I liked them we were good together ...I don't remember the details and I'm a little wrong because it dates from 2007 ...In this story, I tell facts that were a drama that did not have was revealed to the general public I was in the police that I resigned after that I lost my life and defrauded by the police that my story is on Facebook that it is read by everyone and interpreted by people who are not policemen and in my life they say that I am not normal that I have everything invented that I'm a victim of people taking my life Facebook is international and those who are me, are perhaps victims of those who tell me, I came back to Quebec and I was defrauded, I had blocks apartment and I had one in "Sorel" in the block that I currently live in and I was defrauded, I lost my block, my owner currently

stole it and I have no legal recourse and in Quebec there are criminals who will never be prosecuted and all those who in Quebec and Canada who robbed me will never be brought to justice because nothing in my story has been in court the criminals are not judged. I am in misery. I have left to tell my story. There was recently "Avril Lavigne" who wanted help me by contacting me on "YOUTUBE" but it didn't last, I have too much of enemies and they wish that I had never been in the police in action for me I took the body of Stéphanie dead that became a boy I took back my body and , hnny put in jail and the police surely say i haven't been in the police. I am the victim of a conspiracy that no one is with me only my brother who helps me ... In 2018 a month ago I was in the kitchen at home, I heard my brother Marc Aurel call me "Frank"? "Frank"? I went down to basement in his room I entered and said to myself: "look" and I saw a demon with horns on my head I asked "Marc Aurel" is it "Avril May" and he answered me: "yes" and said: "April Avril May?" she looked like "Avril May" and She nodded to me as a sign of yes. I told her I'm going to talk to you in French because I don't speak English very well I'm on Facebook in your name "Avril Laporte" and if I can help you I'll do it but I don't have a can i only have the strength of what i can do in this world i tell him in this world you are my daughter and I am the prince of England you are a princess in this world you have a title in reality it's not nothing it's better than a demon and I say to Marc-Aurel do I have horns on my head and he told me no and told him let's go turned me towards him and I saw him with horns on head touched one and said come on we'll deal with it upstairs and the horns gone ... And after going upstairs, sat in the living room in the couch I live the face of "Marc Aurel" transfiguring light, it was a miracle of God...(in January 2018)...Let's get back to me and "Avril Lavigne" in 2007-2008. I was a billionaire and I owned several companies and I lived with "Avril" and I was a police officer "Avril" it was a father-daughter relationship that we

worked together even on this career...My lived story is true!! I lived my past in the "twilight zone". Governments tampered with evidence of my life as my father was a secretive man with methods secrets to hide the truth. He had the governments in his favour, as in 1978 if not 1977 if I remember correctly the queen had come to find her s

a parade organized by the government which was made aware of the presence of the Queen in Quebec and the parade passed on the 59th avenue in Joseph before being made aware of the Queen's presence for hide her presence she took the place of: "Mme Miron" my friend's mother "George Biron" whose family was killed by a biker who disintegrated the bodies in sulfuric acid baths I was there. So the queen was "Mme Biron" to whom it looked like and the queen was attacked died and lived again like the song of : "The sexpistol: God save the Queen"... Let's go back to 1986 that me "Frank Laporte" in my own body I have been on records and in shows: "Peter Gabon" and being in England I am also after changing bodies without to be this "princess" the princess "Stéphanie of Monaco" because I lived "Montréal-nord" in Quebec and "peter Gabriel" had died and I wrong my memory is a little deficient I had not yet inherited of my mother the queen of 1988 but it is possible that it was in 1986 "peter Gabon" had died and I became "Peter Gabon" I composed the album: "Hammer" and in this time also being with the Queen of England mother who knew the truth about her son who was in his childhood the: "Princess Stéphanie de Bello" I became the deceased: "Princess Stéphanie" I put on disc of albums like "Plash" I lived in his body and I took back my own body and there was a second woman who took the body of now the real "Stéphanie" who took my place when I was "Peter Gabon" and I came back to Quebec and returned to my family, including my father ... Let's go back to Saint Joseph du Lac in 1979. I and my brother Marc-Aurel

we made love and Nathalie smiled at me and said: "You just ejaculated at the age of 9 and a half years old and Marc-Aurel 7 and a half years old with "Nathalie Brisebois" and Marc Aurel "Chantal Saint-Onge" from today's reality nothing happened but me in my reality that our father is "Peter Gabon" had adopted our daughter that "Nathalie" had and before having her adopted I had named her "Britain" like "British" the time of the album: "games without" but when I lived with Britain and met her mother in 1992 she tells me it was in car in Saint-Eustache that she had sex with me...Britain Scare is fine my daughter even her date of birth that corresponds more with me who had the same date as with my first sexual relationship it is a "complot".I will tell you that with "Eve Marion" we started the career of "Britney Spears". At the time of the song "Back To Me" I was with "Eve" that my sister "Suzie" had replaced "Eve Marion" and my sister died in this year but before she died we were at her home: "Céline". And I had still the money I had inherited but. In fact at the time of: "Back To Me " we had the visit of the mother of "Britain" who said to me: "Britain Scare is your girl and do something for her i want you to start a career as singer for your daughter and I gave all the contacts and using our contacts for the career of "Britain Scare...I will now talk about "Lida" in the years 1975 and more my father "Peter Gabon" at the time of "Broadway" he was poor and he had a mistress who was "Lida" we were the "Laporte" of the Quebec and she came to see "Peter Gabon" and his family, she said to herself my mother and not that I was the son of the "Queen of England" she was in my life several years she surely remembers me that I was at her house in Greece... 1988 when I inherited from the "queen" my mother, I was the prince and I was at a military school to become "colonel" only a few months. I was the prince of England Colonel of the Canadian Army, in the records I have always appear there and in 2007 with "Britain Scare" at the Canadian army they confirmed my words and gave back my post of "colonel" and I used the army

against the "Angel" being in the police afterwards...During the 2008 drama that I destroyed the planet with the missiles to the room of the missiles the planet whole was overrun with man-eating monsters that devoured cities whole ... I was traumatized, I had lost my loved ones in the drama and sight and been through so much unimaginable drama, I was making good decisions until I saw no way out of this carnage that had cost the lives of so many people important ... When I press the buttons and launch the missiles it was that the city of "London" in "England" was devoured by eating monsters of men and the "royal palace" was invaded by its monsters...When the earth was destroyed God appeared to me in a spaceship he welcomed me I sitting next to him, he had a face that looked human but his body was translucent and asked me what to do? and I told him send them to heaven and he told me answered: "there are too many human deceased, I must judge them of what they did good on earth and he resurrected the whole world and now nothing is arrived and "God" asked me do you want to stay here and I said to him: "no I have family who needs me and came back to earth... When the earth was killed a chief "Angel" said to me: "you killed us"...I spoke so that it does not happen again more because there is a second "Frank Laporte" who they claim to be me! and they are going to redo my lived history by claiming to be the "Angel" who committed himself and not a policeman colonel in the army against the "Angel" they will say that the colonel was an "Angel" and will they redo the drama lived a second time now you know my story is over soon and soon they will say that it's not me "Frank Laporte" on "Facebook" and elsewhere my copyrights and my life is in jeopardy...I'll be back before the end of my story going back to in the 1980s telling the life of when I was "Peter Gabon"for a while only..."Peter Gabon had been declared dead and I was informed that my father "Peter Gabon" was dead and I who seemed to take his place and did concerts and composed the album "Hammer" and he reappeared alive after my father "Léo Laporte" took my place ...Before

to come back to "Peter Gabon" I'm going to tell you how in 2008 I was defrauded and lost all my money me who was a billionaire only defrauded at the "United States" and elsewhere and especially in "Quebec" that I was still the owner of several companies that before being defrauded here and elsewhere I had refused to buy "Charles Lorendo" and "just for laughs"... In 1988 I was an "Angel" in the police and "Colonel of the Canadian Army" I had my heritage of the: "queen of England" I was the "prince" \$80,000,000 that I invested from the money and it was stolen from me the criminal operation took place and I accused and arrested those guilty of heinous crime and also "Colonel" I intervened but my memory fails me that I had surgery and my memory fails me that in 2007 my memory was stolen part of my memory was taken away in a surgical operation I still have some cognitive memory and in 1988 I went to court and I was accused of a crime that they tried to charge me of several murders my that there is a missile programmed on each of the house, building or construction on the whole earth file is always at the police ... But the events that have taken place in my life are events sad that those close to me lost their lives is and has been against me a victim who repented and always had a life as a person who respects the authorities and the laws that I am defrauding and a victim of government and the justice who took my identity and who lies on the real file: "Francis Laporte" ...In the "Everything" video from "Britain Scare" where she dies and is in the hospital and wake up alive the video is from 2004 but I remember from 2007 that she dies and in the hospital she is reborn twice so that she is really her but the dates and places and other details have been changed to say that 4 884 / 5 000

they say that I lie and that my lived story is false...When the drama of 2007 after the end of the world only whole population remained dead they were only dead bodies and I who was a colonel had necessary resources that we have given entire populations back to life, all were operated on and relived like "Italy" "Italy" was dead I didn't have a lot of time ahead of me to bring them back to life. I worked on the reconstruction of civilization...Let's go back to the 80s or did I made love to several women I was quite tall and the first time I ejaculated it

was in 1979 at the age of 9 and a half. So in the 80s I had children from early and unexpected sex. I've had among others: "Natasha Saint Pierre" the singer I met in 2007-08 that she said to me: "you are my father" and I was a billionaire (But I don't remember more exactly money that I had left maybe hundreds of millions) and in the police I was with "Natasha" and she was in danger and she participated in my police operation ... In 2007 when I was rich and policeman, I was a police sergeant in Europe in France and that's where I met "Natasha" that I participated in the design of her video: "I only have my soul". I also met another of my European daughters the singer: "Scampi" the money I had was a reason to have met my children... My memory fails me but when I was a policeman in "France" I was captain the position I accepted was important and my daughters were attacked by the "international Mafia" "Scampi" she became my true again real girl: "Scampi"...

<https://www.youtube.com/watch?v=UidoXCF8qzg&feature=share> I tell my lived story which took place in 2007-2008 that I can prove that at government I no longer lived in Quebec that my story was the story that it turned out to be a story of a drama and a fraud but it was also a story of reunion of happiness and my story turns out to be a denunciation that the proofs of my story are now proofs to the police and currently there are investigations in the direction of the service of Montreal police will they destroy the evidence of the file: "Frank Laporte". There has witnesses who have known me here and elsewhere...

<https://www.youtube.com/watch?v=clkkPgsp39o> I also wanted to say that I was at the "UN" in 2007 for only a few months 1 or 2 months I don't remember that now I have a friend at the "UN" (Carolyn Smith) that I was a billionaire colonel in the army (I don't remember exactly that I been director of operations of I can't remember which department exactly but I had setbacks with my money I remember better now that I exercise my memory I was president at the "UN" but I was operated they took part of my brain memory if there is a "President director general" at the "UN" in 2008 it was me!) and policeman. Operations I made some and the money I gave... I was several personalities with different body that it is a secret that dates back a long time whose the singer of the group "The verve" in 2007 with "Britain Scare" which I was also the singer "Eminem" but this too is disputed that I "Francis Laplante" has was already the singer of the punk group "The sex pistols" but my memory makes me default that I was signing papers that I was in court: "Frank Laporte"... "sex pistols" I only remember being the singer and singing the song "god save the queen" but my memory fails me the song date of 1977 that I was 7 and 8 years old

I would like to go back to "Britain Scare" that in 1991 where I lived with "Daniel Provôt" in the gay village of Montreal and I met "Britain Scare" in the street she had an unrecognizable hat and she said to me Frank Laporte? and answered: yes she said to me: "I am Britain Scare you are my father and said to
